HCPC Strategic Risks				
Summary of strategic risks				
Strategy	Strategic Risks - from November 2024	Risk Description	Sep-25	Target Risk*
1 - Continuously improve and innovate - To improve our performance against PSA standards of good regulation and to innovate across all our regulatory functions to provide an enhanced user experience.	1. We are unable to deliver our regulatory requirements sffectively in a changing landscape, effecting our ability to protect the public.	Not delivering or meeting: Informed registration decision making; Proportionate and fair FTP decision making; Engaged Education decision making; PSA Standards of Good Regulation; Appropriately managed improvement programmes in regulatory areas; Consideration of EDI needs, including accessibility of functions and fairness of decision making.	9	6
2 - Promote high quality professional practice - Enable our professions to meet our standards so they are able to adapt to changes in health and care practice delivery, preventing harm to service users.	2. Our standards do not reflect current practice and/or they are not understood by registrants and our stakeholders.	Relates to: Quality and suitability of our standards and guidance in setting a threshold for safe & effective practice which protects the public. How effectively we communicate our regulatory expectations. The effectiveness of our professionalism and upstream regulation work. Effective and informed consultation process, including enhanced EDI consideration.	6	3
3 - Develop insight and exert influence - Learning from data and research to inform our decision making and share insights to protect, promote and maintain the health, safety and well-being of the public.	3.a Quality of our data leads to assumptions or gaps in understanding, and therefore inadequate or uninformed decision making. 3.b We are unable to maximise our use of the data we hold to share insights to protect, promote and maintain the health, safety and well-being of the public.	This includes our effectiveness in collecting, maintaining, and utilising the data we need to be an intelligence driven regulator and the effectiveness of our insight and intelligence work. It relies heavily on the work of the digital transformation and IT team and includes operational reporting in the Corporate Services team. It also relies on regulatory teams inputting information.	9	6
4 - Be visible, engaged and informed - We regulate, take and communicate decisions which are informed by a deep understanding of the environment within which our registrants, employers and education providers operate.	4. We are unable to effectively build trust, engage with and influence our stakeholders reducing our ability to understand their perspectives and regulate effectively.	This includes how effectively we engage with our stakeholders and our credibility with them and how well we play our part in the wider system. It includes our EDI practice externally, the ability to respond and influence external drivers for change.	9	6
5 - Build a resilient, healthy, capable and sustainable organisation - Employees feel valued and supported, and fully able to contribute. The organisation is resilient and able to quickly adapt to changes in the external environment.	5.a The resources we require to achieve our strategy are not in place or are not sustainable. 5.b Our organisational values are not reflected at all levels of the organisation, leading to staff not feeling supported/trusted/listened too.	This risk includes not securing the resources we need to be effective and / or not being efficient and effective in our use of our resources (resources include financial, knowledge, skills, culture, infrastructure). The development of our culture, people and physical assets, our continued financial viability and the significant failure of key business processes.	10.5	9
6 - Promoting the value of regulation - The public, registrants, students and employers understand the value and importance of regulated health and care professionals.	6. We do not sufficiently or appropriately promote our work leading to opportunities to enhance our regulatory activity being missed and the benefits of regulatory reform remaining unrealised due to: a) the role of regulation in the delivery of high-quality care is underestimated by the public, registrants, students and employers. b) our ability to protect the public is under-recognised by policy makers and influential stakeholders.	This risk includes the HCPC's capacity and capability to engage and influence regulatory reform effectively to ensure its benefits are realised, as well as the HCPC being viewed by government as a priority regulator for reform.	8	6

Strategic Risk 1. We are unable to deliver our regulatory requirements effectively in a changing landscape, effecting our ability to protect the public.

Risk Summary	Not delivering or meeting:
	Informed registration decision making; Proportionate and fair FTP decision making; Engaged Education decision making; PSA Standards of Good Regulation; Appropriately managed improvement programmes in regulatory areas; Consideration of EDI needs, including accessibility of functions and fairness of decision making.

Current Risk Influencers	
✓	The 2024-25 PSA performance report published June 2025 shows we met 17 of 18 standards.
✓	Engaging with regulatory reform programme, and are next on the list to go through the process.
✗	Tone of voice work still to be conducted in the wider organisation
✗	High number of corporate complaints due to delays in the international application process

Mitigations in place	
 Second line QA plan for 2024-25 to review success of improvements in FtP, Registration & education in addition to first line QA activity in place, such as the FtP DRG and panel member feedback following each hearing.	 Centralised PSA coordination. Participation in inter-regulatory working groups to share good practice and discuss common issues, this is also provided though the use of a panel of legal providers for FtP matters with
 Wide range guidance on HCPC's regulatory processes available on our website.	 Monitoring regulatory performance through performance reporting and KPIs.
 Modern education QA model. Regular feedback sought and acted upon to improve process application and stakeholder experience. Education provider self-service portal in place improving experience of education stakeholders.	

Areas of Development	Progress 2024-25	Mitigation	Reporting period commentary
Registration Assessment model 	Planning underway to remove "further information" from the international registration process. Engaging with internal teams and assessors and aiming for early Q3 implementation. Planning for a tender exercise for an assessment partner. Currently drafting the Invite to Tender.	A more balanced approach to international assessments will give more confidence in decision, and reduce delay complaints.	The PSA performance review for 2024-25 has completed and we are working with the PSA to finalise the report ahead of publication by the end of June 2025.
Customer contact 	Complete Commercial agreements to establish new strategic partner to delivery Customer Contact services for the HCPC (Q1). New strategic partner in place. The implementation of an as-is replacement of existing telephony system is on track. Feedback and Complaints improvement: Moved from Lotus notes to Excel which has allowed us to have more detail when recording the types of feedback and complaints received. Next stage to progress the reporting, which has been on hold to manage the BAU workload. New Feedback and Information officer starting in September.	More accessible and available communication through an improved customer contact services allows us to support people through their regulatory processes more effectively.	While recruitment campaigns continue in FTP on a rolling basis to manage gaps in current headcount, due to new streaming model and increase in complaints will warrant a review in overall resource requirements.
Partners transformation work 	97.5% all partners signed new contracts for start of October. System and process improvements to regulatory function payment pathways completed for Education and Registration. FTP system and process changes on track to be in place ahead of 1 October deadline, however mitigation planned if this is delayed. KPI and Quality: Analysis and workshops have been completed and verbal update given to PRC. Next step heads workshop, board approval, then Executive Leadership Team (ELT) approval.	A new model for how we approach and manage our partners will allow us to have more confidence in their performance.	The partner transformation work continues at pace. Communications have recently gone out to partners of the Council's decision to implement new contracts from October 2025, which provide for payment of holiday pay and automatic enrolment in a pension scheme going forward.
FTP 	Newly established legal team: Good progress and most of these posts are filled in new legal teams including new team not forecasted as of Q1 this year. Recruitment ongoing for Substantive order review case manager role. Ways of working being worked through. Internal Frontloading: Good progress, 3 post ICP hearings scheduled in October. Change of operating model: Operating model implemented (7 July), streaming now live and now into 6 weeks of new model. Professionalise our in-house legal services: On track for delivery as planned engaging with Business change and have a quote for research facilities obtaining quotes options for dictation and business change looking into current methods used elsewhere in business for electronic signatures. Scheduling process review phase 2: In process of developing business case for elt September, this is for next phase, significant change to listing final hearings – likely to go on to next financial year, planning this financial year	FTP's continued improvement in performance, while also developing new approaches to delivering regulatory duties, ensures that FTP decision making is fair, proportionate, and of good quality.

SETs review 	Completed (seen at Council on 17 July) Pre consultation engagement (Q2-3). Paper going to next ETC setting out the proposals for the amendments to the standards which will go to consultation. Then to council for approval before consultation is launched.	Thorough consultation with a wide range of stakeholders gives us confidence our standards are proportionate and accessible	The SETs pre consultation has been completed and the Policy team are preparing for the consultation of the amendments to the standards to be launched in Q3, following ETC review and Council approval. Due to the gaps in the Professional Liaison and Outreach department the risk likelihood has increased, bringing the overall risk rating to medium.
Scope of practice 	Update paper going to next ETC meeting. -3700 professionals register interest in advanced practice webinars. -Will be delivered between 29 September and 5 November. -Working with GOsC to develop joint materials, including online resources and signposting.	Supporting registrants and employers to understand scope of proactive supports upstream regulation	
Professional Liaison Service 	Awaiting FTP report 2024-25. Using external data points to target specific workplaces such as CQC reports, RQIA, NHS staff survey, external intelligence (FTP analysis framework). Recruitment for new of Head of Department is underway. Professional liaison consultant for Scotland recruitment will commence once they are in post. Delivering more in person sessions and using participants real life experiences in the sessions to explore the topics.	Utilising the source of stakeholder feedback received by the professional liaison service provides insight to registrants understanding of the standards.	

Strategic risk 3.a Quality of our data leads to assumptions or gaps in understanding, and therefore inadequate or uninformed decision making.
3.b We are unable to maximise our use of the data we hold to share insights to protect, promote and maintain the health, safety and well-being of the public.

Risk Summary	This includes our effectiveness in collecting, maintaining, and utilising the data we need to be an intelligence driven regulator and the effectiveness of our insight and intelligence work. It relies heavily on the work of the digital transformation and IT team and includes operational reporting in the Corporate Services team. It also relies on regulatory teams inputting information.

Strategic risk 6. We do not sufficiently or appropriately promote our work leading to opportunities to enhance our regulatory activity being missed and the benefits of regulatory reform remaining unrealised. This can manifest in two primary ways:
a) the role of regulation in the delivery of high-quality care is underestimated by the public, registrants, students and employers.
b) our ability to protect the public is under-recognised by policy makers and influential stakeholders.

Risk Summary
This risk includes the HCPC's capacity and capability to engage and influence regulatory reform effectively to ensure its benefits are realised, as well as the HCPC being viewed by government as a priority regulator for reform.

Current Risk Influencers	
✓	The Government have confirmed in a Written Ministerial Statement, its commitment to reforming the regulation of healthcare professionals across the UK and delivering legislation relating to the Health and Care Professions Council in this Parliamentary period.
✓	Collaboration with stakeholders such as NHS England provides organisational experience for greater cross organisational collaboration on workforce as aimed for in regulatory reform. Positive and wide-reaching engagement with HCPC stakeholders on regulatory reform.
✗	HCPC funding challenges risk being unable to scale up to meet needs of regulatory reform due to parliamentary approval of fees and associated
✗	NHS Manager barring scheme - Further clarity and planning needed to manage this new approach to regulation.
✗	Regulatory reform not included in 2024-25 budget, but will be reviewed once firmer dates are confirmed.

Education 	Help education providers and others understand our regulatory requirements, and current sector trends, by considering our assessments from the 2024-25 academic year, building on previous analysis, and publishing/engaging on key findings, in a user focused way (Q3). We have published insight from our assessments from three academic years, including the 2023-24 academic year. This information was future proofed, and will be updated with findings from the 2024-25 academic year in Q3.	Supporting understanding of the value that regulation adds	In July the government announced that a new statutory barring scheme be introduced on NHS managers to ensure those who commit serious misconduct cannot take other NHS leadership roles. Bernie O'Reilly, CEO and Registrar at the HCPC said: "The introduction of a new system of regulation will be complex to get right. We will work closely with the Government, senior NHS leaders, representative bodies, and the wider sector, as the legislation is developed. It is essential that the new disbaring process has the right levels of funding, resourcing, and independence to help keep patients safe."
