 - a.** Review period for institutions which have been subject to the performance review process, with provider observations:
 - British Psychological Society
- 4. Any other business**
To be notified and agreed by the Chair
- 5. Close**

The Education and Training Committee makes all decisions on programme approval and on other operational education matters. Decisions are categorised into three ‘tiers’, which are categorised based on risk, whether recommended outcomes are challenged by providers, and / or whether there is a significant negative impact for the provider and/or learners. Meetings of the Education and Training Panel are reserved for items which require a higher level of oversight or discussion before a decision can be made.

This agenda is for tier 2 meetings-based decisions. Each section of the agenda has an explanation of the recommended process outcome, with information which enables the Panel to make a decision.

2. PERFORMANCE REVIEW

a. Review period for institutions that have been subject to the performance review process, with provider observations

For each provider listed, partner visitors have judged that the provision is of sufficient quality to continue to meet relevant education standards. They are recommending review periods below, for the reasons noted in the enclosed report. Education providers have supplied observations for these recommendations, meaning they object to the recommendation(s) for the reasons noted in their observations.

The Panel is asked to consider the information in the enclosure(s) and to approve the recommended review period for each provider.

Education provider	Review period recommended	Enclosure
British Psychological Society	2025-26	2a
